I BELIEVE, THEREFORE I AM.

There were times in Bowen when setbacks, stress, and disappointments weighed you down.

But you learnt to laugh, let go, and *rise again with a stronger spirit.*

Resilience is not about avoiding struggles, but about *bouncing back higher each time.*

So remember to shake off the doubts and **soar with confidence into the next chapter of your journey.**

Passion Basket

Consider the courses that **most align** with your strengths and interests.

1st 3 – 4 Choices

Practical Basket

Choose what you are **interested in** and **stand a good chance** in securing. Consider the latest aggregate scores of the courses in each institution (where your net score is **within** the range of the last year's aggregate score).

Next 3 – 4 Choices

Prudence Basket

Include alternative courses where the latest aggregate scores are **higher** than yours. With this, your chances of securing a place will be higher.

Last 3-4 choices

Key Pointers for Students on ITE's Joint Intake Exercise

Use ALL 12 JIE choices wisely!

- Read the information on courses offered.
- Visit ITE website for further information on ITE courses.
- Make sure that the courses you choose are the ones you are **eligible** for.
- Make sure that you are free from **colour appreciation deficiency** if the course you are applying for has this requirement.
- Enter your choices in **order of preference**
- If you do not use up all the choices, you are limiting the choices you have in where you could be posted.

For 4NA students: You may apply under both JIE 'H' and JIE 'N' intake exercises.

For 4NT students: You may apply under both JIE 'N' and JIE 'E' intake exercises.

However, you will only receive **one course offer** from either intake exercises.

Key Pointers for Students on ITE's Joint Intake Exercise

ALL students in N(T) and N(A) students (who are not progressing to 5N(A) or repeating 4N(A)) are eligible for JIE.
Those who were unsuccessful in EAE are also eligible for JIE.

Apply in the 1st JIE main phase in December.

Use all 12 JIE choices wisely, as competition for 3-year Higher Nitec courses is keen!

Do consult your teachers / ECG counsellors to help you make your choices!

Do use the Last Aggregate Score (LAS) published in ITE's admission portal to help you make your course choices.

You are eligible for Enhanced Foundation Programme (EFP) if you receive an invitation letter to the EFP addressed to you and a copy of invitation letter for your parent/guardian.

If you are eligible for EFP, make sure you apply for both the 4-Year and 3-Year Higher Nitec Course.

The EFP helps to build the necessary literacy and numeracy foundations!

If you are counter-offered a course, accept it first to secure a place in ITE, before appealing for another course you may be more interested in!

Options for N(A) Level Students

Comparing the Options

| Sec 5N | Going to DPP / PFP / NITEC |
|---|--|
| More academic learning (O Levels is much more rigorous than N Levels) | More hands-on learning |
| If you qualify for PFP/DPP, but not choose to take this up, you will have to work very hard to do well at O Levels for a place in polytechnic as you will be competing for spaces with 4E students. | If you qualify for PFP/DPP, you have a very good chance of making it to the polytechnic through this path. |
| If you do not do well at O Levels , you cannot use your N Level results for entrance to Higher NITEC . You may only use your O Level results. | For DPP, you may take an extra year to make it to Polytechnic. For PFP, you will make it to Polytechnic at the same pace as those who qualify through O Levels. |

Options for N(A) Level Students

- Note:
1. There is a big jump in level of difficulty between N and O level questions.
 2. Doing Sec 5 means you will remain in Bowen – there is safety and familiarity.
 3. Once you get into Sec 5, you should aim for poly/JC. The main route to poly/JC is the Joint Admissions Exercise, which S4 students taking O Levels will also be using to apply to poly.

ELR2B2 ('O' Level results) is used for admissions into the polys.

- English Language
- 2 RELEVANT subjects** for the course applied for
- 2 other best subjects

ELR2B2 must be ≤ 26 points to qualify for Poly; you must qualify for the min. entry requirements of the desired course

Advice to 4K and 4L Students

- 1. If you qualify for PFP or DPP, we strongly encourage you to apply.**
 - PFP and DPP lead directly to Poly courses.
 - Moving to the next step in 2026, will give you a sense of progression and is very motivating
2. While you may feel that Sec 5 is a 'safety net' as you can't decide which course to apply for, note: *Sec 5 students apply for Poly together with S4 students taking O Levels.*
- 3. So, trust yourself and apply for the PFP or DPP course(s) that most appeal to you.**

But if you want to study in Sec 5 for O levels,
we warmly welcome you too!
